our story

Apaiser is an Australian – owned, international bathroom designer and manufacturer specialising in stone composite bathware. Developed initially in 1998 for the luxury resort market, the apaiser range focuses on the creation of luxurious ambience in the bathroom.

Our unique bathware products redefine the traditional bathroom space and transform the act of bathing from function to ritual, with its sleek minimalist design and flowing forms.

Apaiser's stone composite bathware collection encompasses contemporary minimalist forms to classical old world elegance and offers the versatility to match any bathroom environment. Our global reputation and success can be seen in such diverse locations as The Four Seasons in The Maldives and Tahiti, The Club at The Legian in Bali, The Grand Hyatt Moscow and many leading hotels, condominiums, apartments and private residences. Apaiser is recognised globally as the leading stone composite bathware supplier.

the product

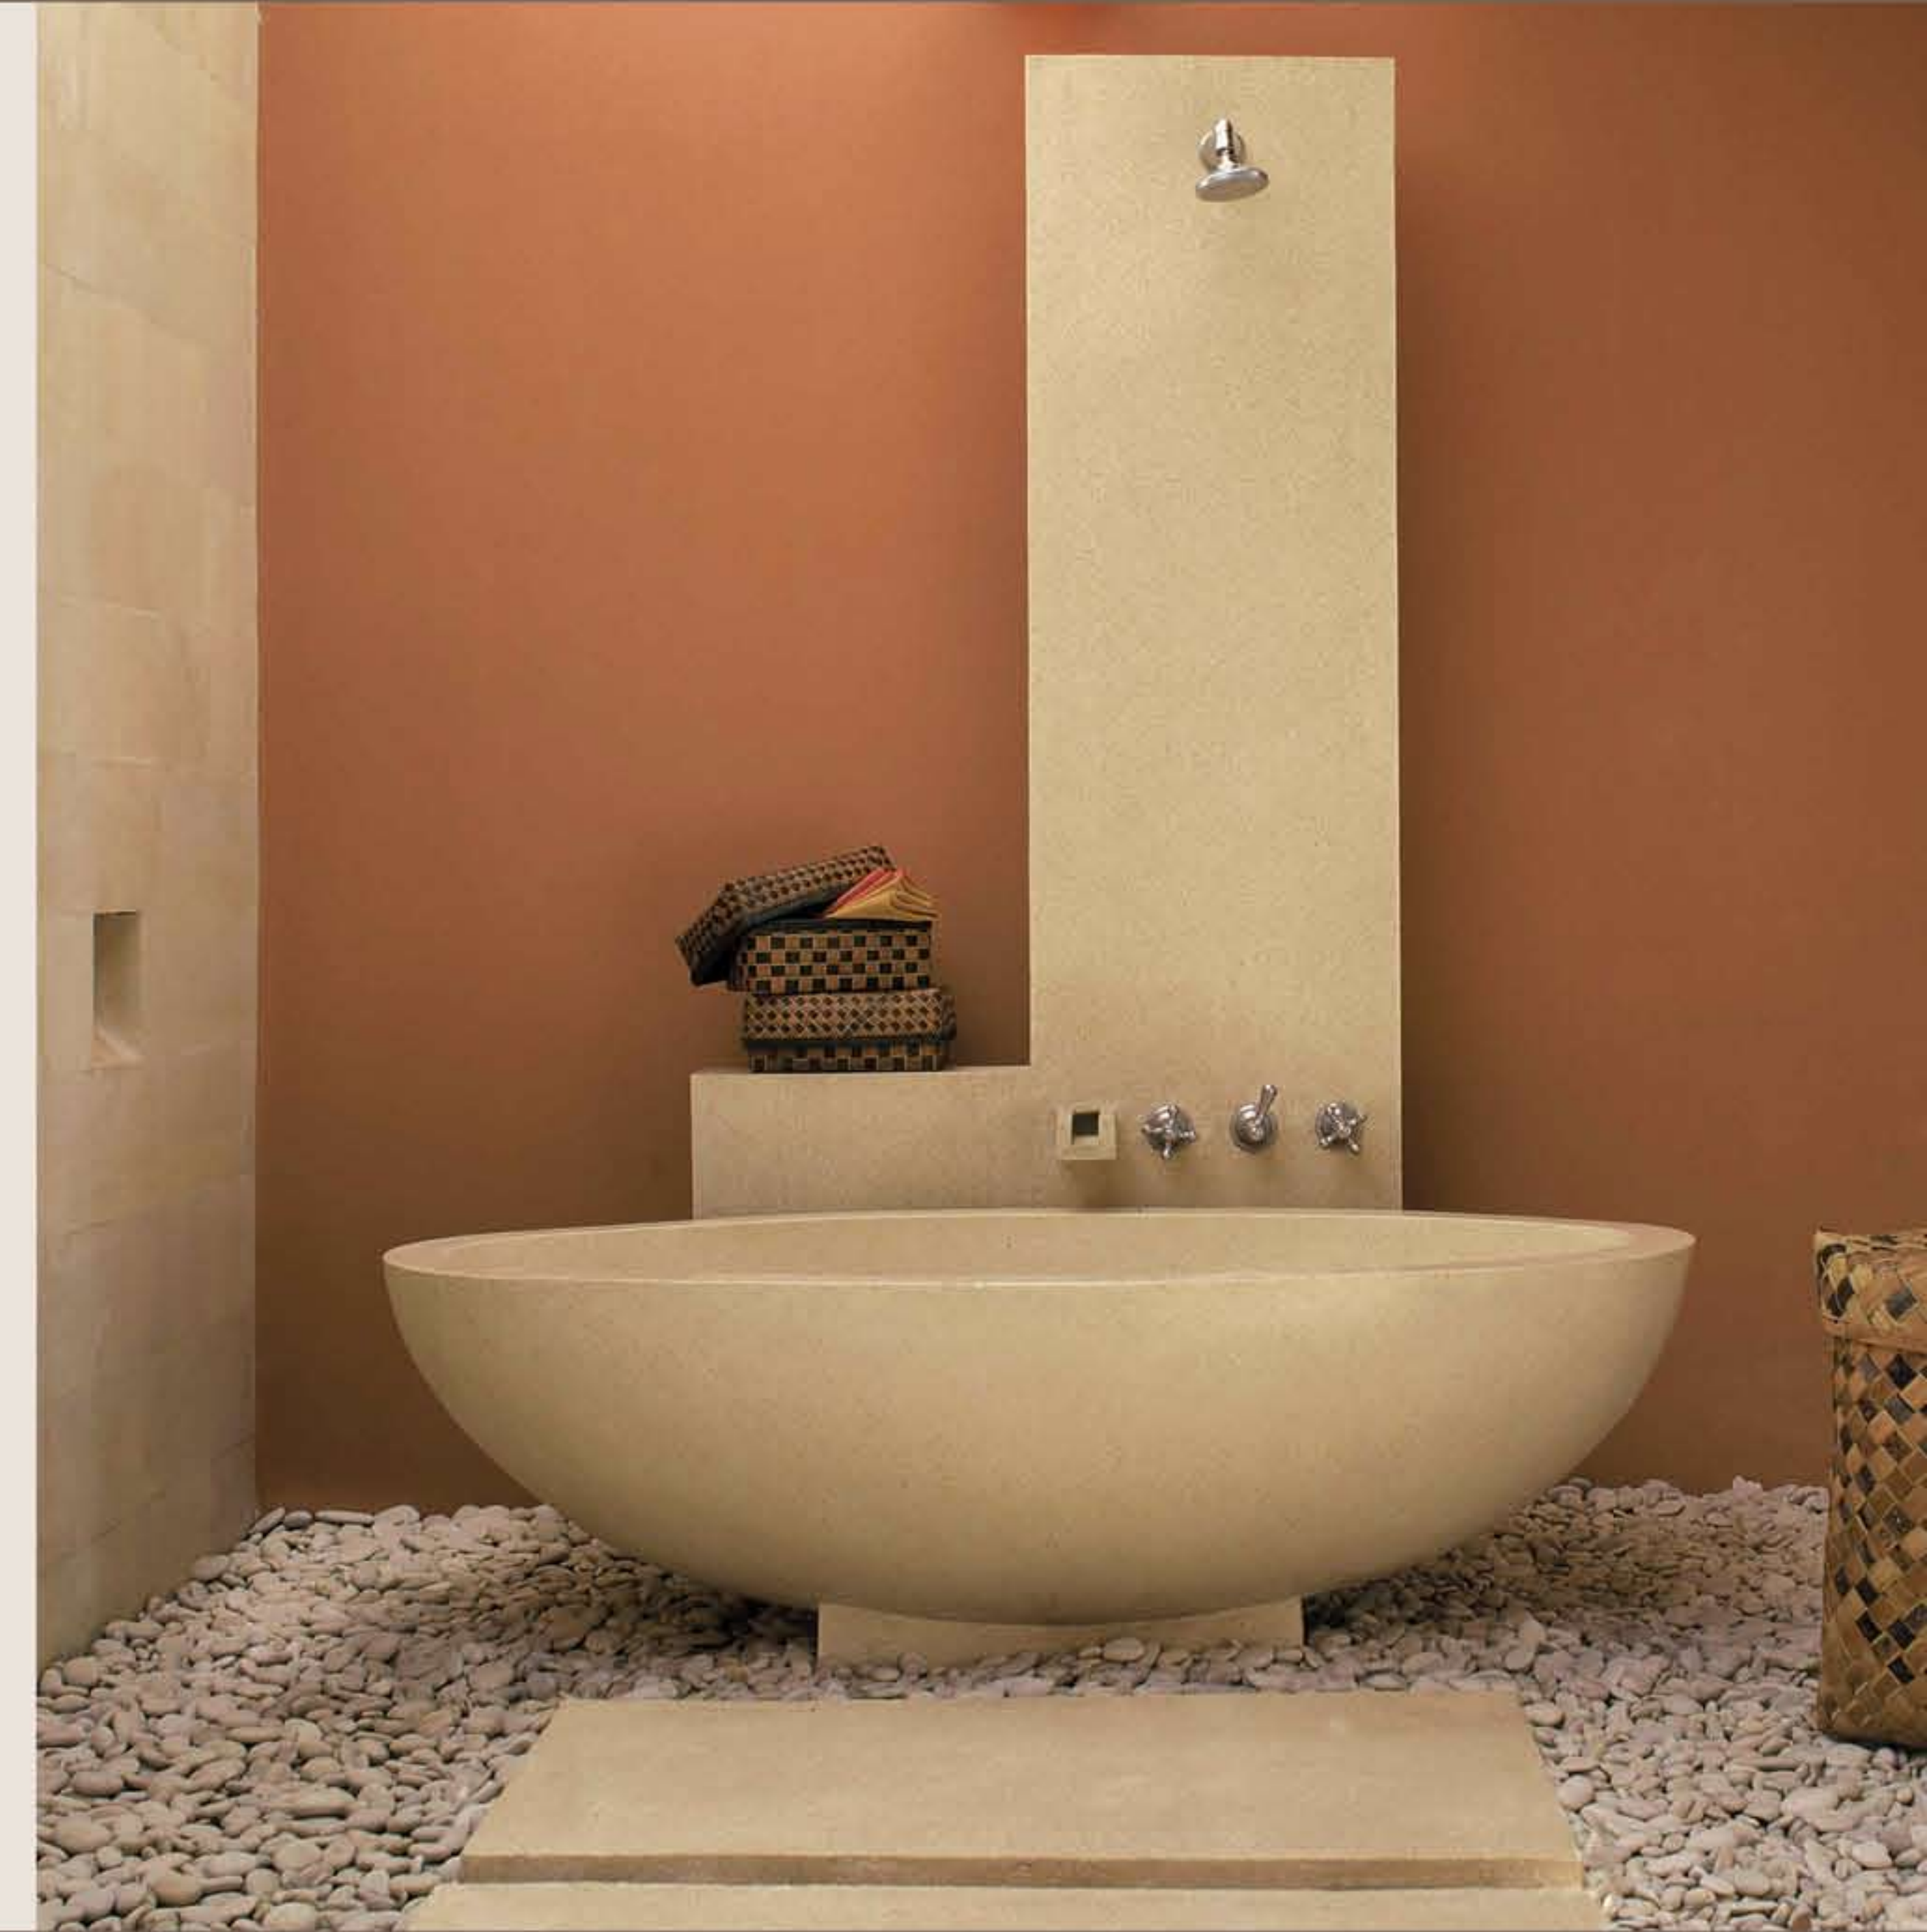

Apaiser's unique proprietary stone composite formula, is a blend of stone aggregate, marble, resins and polymers. This creates a versatile, light and extremely durable product that requires no sealing, is impervious to staining, heat and chemicals, is abrasion resistant, non-porous and easily cleaned.

The stone composite formula developed by apaiser is warm to touch and delivers luxurious comfort with its superior performance.
